NUCENTRIX SPECTRUM RESOURCES, INC. (DEBTOR-IN-POSSESSION) SEEKS FCC CONSENT FOR THE ASSIGNMENT OF LICENSES TO NEXTEL SPECTRUM ACQUISITION CORP.

WT Docket No. 04-** 40

PLEADING CYCLE ESTABLISHED

Petitions to Deny Due: March 22, 2004
Oppositions Due: April 1, 2004
Replies Due: April 8, 2004

Nucentrix Spectrum Resources, Inc. (Debtor-in-Possession) ("Nucentrix DIP"), a wholly-owned subsidiary of Nucentrix Broadband Networks, Inc. (Debtor-in-Possession), and Nextel Spectrum Acquisition Corp. ("Nextel" and together with Nucentrix DIP, "Applicant"), a wholly-owned subsidiary of Nextel Communications, Inc., have filed a series of applications ("Applications") pursuant to Section 310(d) of the Communications Act of 1934, as amended.¹ In these applications, the parties seek Commission consent to assign Multipoint Distribution Service and Multichannel Multipoint Distributions Service (collectively, "MDS"), Wireless Communications Service ("WCS"), Microwave Industrial/Business Pool ("Microwave"), and Cable Antenna Relay Service ("CARS") licenses from Nucentrix DIP to Nextel.

I. THE TRANSACTION

On September 5, 2003, Nucentrix filed a voluntary petition for bankruptcy protection under Chapter 11 of the United States Bankruptcy Code in the [] Court ("Bankruptcy Court").² As a result of this bankruptcy filing, Nucentrix filed the requisite applications for the involuntary assignment of all of its licenses to Nucentrix DIP.³ These applications were consented to on December 19, 2003, January 6, 2004, and January 14, 2004.⁴

The subject Applications seek Commission approval of two separate transactions between Nucentrix DIP and Nextel.⁵ Pursuant to Bankruptcy Court approval, Nucentrix DIP conducted an auction, on November 5 and 6, 2003, to sell certain assets, including the rights in and to Nucentrix DIP's licenses, to the party submitting the highest and best offer.⁶ As a result of the auction, Nucentrix DIP and Nextel, the party submitting the highest and best offer, entered into an Asset Purchase Agreement, dated November 10, 2003, for the sale of the rights in and to Nucentrix DIP's licenses, along with certain spectrum and tower leases and other related assets, to Nextel for \$51 million, subject to certain adjustments.⁷ Additionally, Nextel agreed to provide financing to fund Nucentrix's operations as debtor-in-possession under the Bankruptcy Code through the closing of this transaction.⁸ On November 12, 2003, the Bankruptcy Court approved the Asset Purchase Agreement.⁹ Additionally, prior to the auction, Nucentrix DIP and Nextel entered into an Agreement to Assign Certain Basic Trading Area Licenses, dated October 17, 2003, involving 10 BTA licenses and four partial BTA licenses.¹⁰ The Bankruptcy Court approved this limited Asset Purchase Agreement on October 28, 2003.¹¹

The Applicants assert that grant of the instant Applications would serve the public interest by allowing Nextel to increase its spectrum capacity and offer new digital wireless services to customers, including those customers in rural areas.¹² According to the Applicants, Nextel's expertise in developing and providing innovative wireless services in previously underutilized spectrum will be applied to the spectrum it would acquire under the terms of the proposed transaction, furthering the Commission's goals of promoting the rapid and efficient development of quality spectrum-based services in rural areas.¹³ The Applicants add that approval of these applications would permit Nextel to apply the substantial experience it has gained in band clearing – transitioning incumbent licensees to other spectrum to clear frequency bands for new commercial mobile radio services ("CMRS") – to facilitate the proposed realignment of the MDS and ITFS bands.¹⁴

Moreover, the Applicants state that this transaction will enhance consumers' competitive alternatives by helping Nextel to provide the full menu of wireless services demanded in today's marketplace.¹⁵ The Applicants further allege that the proposed assignments will not have an adverse effect on competition because Nucentrix DIP and Nextel compete in different product markets.¹⁶ Finally,
